The whole number of acres under irrigation is 8,148.

The game of ball to day between the Colorado Springs and a club from Yuma, Col., will probably be interesting. The Yuma club is not very well known throughout the state but the citizens of that town are confident it can win in a game with our boys. Perhaps there is a surprise in store for the Springs team [illegible]

A man by the name of Noe from East [illegible] was brought before Justice Carman yesterday on a charge of assault with intent to kill. He waived examination and was placed under $1000 bonds. The assault was made nearly a month ago upon J. W. Tipton with whom Noe was quarreling over some sheep. Both men thought Tipton was going to shoot him so he used first shooting at Tipton on the neck.

The amateur minstrel entertainment to be given on the opera house next Tuesday evening for the benefit of the Bellevue sanitarium promises to be a great success. The troupe will be made up of some of our most prominent young men who are holding rehearsals every evening on the opera house and those who have attended them say their performances will be quite entertaining and equal to the average traveling company. The tickets will soon be on sale and [illegible] packed house.

The GAZETTE explosive challenge has been accepted and come up from the plumbers of the city will contest [illegible] Saturday afternoon for the championship of the trades of the city. The new town is in the hands of a pushing, enterprising company, besides having the greatest natural advantages. It is situated in a good agricultural country, in close proximity to both coal and timber; and is supplied with the finest of spring water. It is but twenty miles from this city and will not be a menace toward it, but will rather be a benefit both to this city and the county. It will be the only junction of the Rock Island with the Denver, Texas and Ft. Worth and the point where the freight of the two roads will be interchanged. It will also be the point at which the Rock Island will receive its supply of coal from the Francerville and other mines in the eastern part of the county. The company has received many applications for lots for both business houses and dwellings, and among the enterprises that will be there will be a branch yard of the Colorado Fuel company. The town company will also immediately erect a first class hotel. Falcon promises to develop into quite a town in fact. Mr. Edgar Bowhurst is the local agent of the company.

The Thanksgiving day will, doubtless be more general and hearty than for several years as from present appearances congress will adjourn about that time.

While the great pressure of public business has kept congress in session there are but [illegible] congressmen, Speaker Carlisle included who have not had time to visit their homes to secure a renomination.

The country is to be congratulated that the present political contest has been conducted so far almost entirely without what is known as mud slinging. The issues of the campaign are so clear and plain that they cannot be obscured by the vilification or abuse of candidates.

The announcement is made that Governor Hill, of New York is to speak for the democratic ticket in Indiana. Reconnoiters from the Empire state have not been very encouraging from a democratic standpoint. But Governor Hill will have fewer personal explanations to make in Indiana than in New York, and his canvass in the latter state has been turned over to the Tiger soldiers, who will do all in their power to elect him.

A comparison of the letters of acceptance of [illegible] Harrison is the most patriotic and statesmanlike. There is no question of national importance which he evaded or ignored. Every vote now before the people was discussed clearly and in unmistakable terms. The question of civil service reform, which seems all-absorbing to Dave Hennessy, Hoadley and the eyes of President Cleveland and his supporters is not alluded to. [illegible] his position on this subject leaves no room to doubt that he is an ardent and consistent believer in the principles of true civil service reform. His letter shows the breadth of his statesmanship while that of Cleveland displays the littleness of the politician.

The managers of the Democratic campaign [illegible] publications. The selection of Mr. Thurman for chairman of the state central committee at the suggestion of Mr. Peckham for governor place the affairs of the party in the entire solidity in the hands of these two gentlemen. The rank and file of the party will blindly follow their leaders, however [illegible] will be the direction taken.
